 - Digital marketing (basic)
 - Basic Research Skills
 - strategy management
 - social impact
-

STRONG Area

Public Speaking & Presentations – confident and skilled in communicating ideas.

Idea Generation & Creative Thinking – enjoy brainstorming and improving plans.

Team Contribution – someone who actively participates and supports group work.

Problem Solving – think of suggestions to make things better.

Attention to Detail – Presenters often care about structure, clarity, and design.

Initiative-Taking – work hard when there's something to build or pitch.

Adaptability – Good presenters often adjust quickly based on the audience.

Communication Skills

WEAK Area

Perfectionism: care a lot about quality and sometimes spend extra time polishing things.

Technical Skills (if still learning): I'm still growing in areas like [coding/tools], but love learning and improving fast.

Delegating Tasks: Sometimes try to do too much, but learning to trust the team and share responsibilities.
